

HIGHER PRODUCTIVITY

FORCE3

DIAMOND CHAIN™

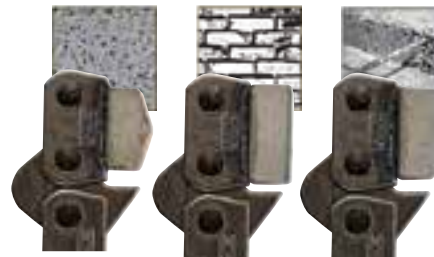

Designed to be used with the full line of ICS petrol-powered saws, FORCE3 Chains offer the ultimate combination of performance, versatility and affordability. Available in three types to match your specific application.

All Force3 Diamond Chains contain patented SealPRO® anti-stretch technology which reduces wear and extends chain life by sealing out the abrasive slurry that leads to chain stretch.

Recommended Chain Applications

	FORCE3™	FORCE3™ BRICK	FORCE3™ PREMIUM
Light Reinforced Concrete	◇		
Brick	◇	◇	
Block		◇	
Soft Abrasive Stone	◇	◇	
Hard Stone			◇
Hard Reinforced Concrete			◇

FORCE3™

Features & Benefits

- Patented roof-top diamond segment improves break-in
- Best all-purpose performance
- Lasts up to 25% longer than EuroMax
- Works well in all materials including light rebar
- A fast cutting chain for everyday use

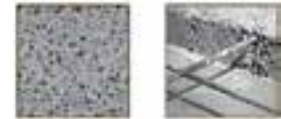

FORCE3™ Brick

Features & Benefits

- Optimized for abrasive materials
- Specifically engineered for cutting brick, block or abrasive stone
- Larger diamond segments for longer life
- Wider diamond segments to protect side clearance in abrasive materials

FORCE3™ Premium

Features & Benefits

- Aggressive cutting design - Optimized for cutting harder materials
- Highest diamond concentration
- Specifically designed to cut hard aggregate or heavily reinforced concrete
