MINITRANSPORTER M560CS

500KG, A PROFESSIONAL'S HYDROSTATIC EQUIPMENT

Your Minitransporter MCH M560CS is the ideal partner for professionals. Its small size and its caterpillar tracks will enable you to work in confined and hard to reach places. It is equipped with an entirely hydraulic transmission (meaning very little wear), a 200 liters TP tipper with hydraulic toppling that can carry any type of material (rubble, sand, liquids, etc...). This machine is equipped with a hour counter and a footboard for a better comfort. It is a polyvalent partner that can be adaptable thanks to its optional equipments.
